Public Hearing Notice – Old Mill Pond Dam

On 09/17/12 the Board of Selectmen will be hold a Public Hearing under RSA 482:13 to notice the lowering of the water that is controlled through the Old Mill Pond Dam located on High Street. The NH Fish & Game Department was notified of the Town's intention to lower the water on August 31, 2012 in compliance with RSA 211:11.

Public Hearing Notice – Lafayette Road & Winnacunnet Road Intersection Improvements & Signal Coordination Project

On 09/17/12 at 7:00PM a public hearing and informational meeting will be held at the Hampton Town Offices, 100 Winnacunnet Road, on the Lafayette & Winnacunnet Roads Intersection Improvements & Signal Coordination Project. The purpose of which is to seek input from the general public and abutters regarding the two proposed preliminary design alternatives and funding options. The Town has received a Federal Congestion Mitigation & Air Quality Program (CMAQ) Grant to cover 80% of all eligible costs, and the Town's share is to contribute 20% funds of the project. The Intersection Improvements & Signal Coordination Project involves 3 components: 1) Reconfiguring and signaling (3 way) of the Lafayette / Winnacunnet Road Intersection to a more typical intersection layout with pedestrian crossing controls and shorter crossing distance to improve safety; 2) Signal coordination of this intersection with other signals in Hampton on Lafayette Road at Stickney Terrace, High Street, and Kershaw Avenue; and 3) re-striping of the lanes for the approach eastbound at the Lafayette Road / High Street Intersection to provide a dedicated right turn lane in addition to the through and left turn lane. Hoyle, Tanner & Associates will be presenting the two proposed preliminary designs alternatives, and will be available for questions.
